We sell only Texas native plants.**

Contact: wilco-chapter@npsot.org

PRICES and OTHER IMPORTANT STUFF

3/5 gallon trees are \$45 1 gallon trees/shrubs are \$25

*Note that “gallon” refers to nursery trade pot sizes. The volume of a “one gallon” nursery pot is about 1/2 gallon. Similar ratios apply to “3 gallon” and “5 gallon” nursery pots.

You will see from the following list that this sale is mostly about woody species. These are the most difficult for us to transport and stock in our in-person sales because of their weight and size. Offering them through this online sale allows us to increase the number of each species available in most cases and expands the number of species we can offer.

If there is a particular Texas native plant you are seeking that is not on this list, please ask. If it is available, we will have it reserved for you at the in-person sale.

Recycle your pots & flats--Bring them to the sale. We will get them to the growers who need them.

All proceeds from this sale support our chapter projects, including native pollinator gardens, field trips, trail signs, student outreach in Williamson County, plant rescue and terrific monthly programs.

WE HOPE TO SEE YOU AT THE IN-PERSON SALE OCTOBER 11TH

Page 2	TREES & SHRUBS, Large & Small, plus Yucca —Protect trunks from deer antlers. Water and mulch to establish. 3/5 gal = \$45 1 gal = \$25 Some 1 gal \$15 (marked)
1 gal	<i>Bauhinia lunarioides</i> ANACACHO ORCHID TREE Deciduous small tree, 6-12' H/W single or multi-trunk; Part Shade; Fragrant White/Pink blooms Mar - May; Low H ₂ O; Attracts Butterflies; Deer Resistance HIGH
5 gal	<i>Bignonia capreolata</i> CROSSVINE 20'-30' semi-evergreen woody vine. Yellow-orange-red, trumpet-shaped 2 in. long flowers, Mar-May. Attracts hummingbirds and other pollinators. Needs sturdy support. Low-Medium H ₂ O, Deer resistance LOW-MODERATE when leaves are in reach.
3 gal	<i>Cercis canadensis</i> var. <i>texensis</i> TEXAS REDBUD Small tree or small shrub, Sun-PS, 10-20'H, Pink/Purple blooms March-April, Low – Med. H ₂ O; Bees; Butterflies. Critical early nectar source. Larval host for Henry's Elfin butterfly, Deer resistance MODERATE
1 gal	<i>Colubrina texensis</i> , TEXAS HOG PLUM Small rounded shrub rarely over 3-6 ft. Sun-PS, insignificant flowers form small round fruits. Can be trained as a hedge on very dry, poor soils with pruning. Provides cover and food for birds and mammals. Not related to edible plums. Low, Very low H ₂ O, Deer Resistance MODERATE
1 gal	<i>Diospyros texana</i> TEXAS PERSIMMON Semi-evergreen shrub or small tree with very hard wood, usually multitrunked. Normally 10-15 ft tall. Striking gray bark with age. Females bear edible black fruit 1" diameter. Birds, wildlife. Very drought tolerant, dry soils. Low H ₂ O Deer Resistance MODERATE
1 gal (\$15)	<i>Eysenhardtia texana</i> TEXAS KIDNEYWOOD , Deciduous large shrub 3-12 ft. Bees flock to the flowers, which bloom at intervals through the warm months. Blooms heavily in spring & then after rain or irrigation. Foliage has a pungent, citrusy smell. Can be small tree with proper pruning. May temporarily lose leaves during a dry spell, but is drought-tolerant. Low H ₂ O Deer resistance MODERATE
1 gal (6" tall)	<i>Ebenopsis ebano</i> TEXAS EBONY , Small evergreen tree, 20-30 ft. Masses of fuzzy white mimosa-type flowers Jun-Aug. Likes sandy soil, has spines. Nectar source. Larval food source for Coyote Cloudwing butterfly and Blanchard's Royal Silk moth. Very drought tolerant. Low H ₂ O Deer Resistance HIGH.
3 gal	<i>Juniperus ashei</i> ASHE'S JUNIPER Evergreen tree, rarely reaches 30 ft in height and spread. Excellent for drought tolerant screening. Males produce copious amounts of pollen which is tough on those allergic. Females produce blue berries popular with birds. The trees offered are seedlings so sex is unknown. Low H ₂ O Deer Resistance HIGH.
3/5 gal	<i>Juniperus virginiana</i> EASTERN RED CEDAR Evergreen juniper tree. 36-72' H. Extremely adaptable after established. Fragrant foliage; blue berries on female trees. More common east of I-35. Low-Med H ₂ O; Deer Resistance HIGH
1 gal	<i>Leucaena retusa</i> GOLDENBALL LEAD TREE Small deciduous tree in Legume family grows to 12-24' tall, showy yellow "balls" of flowers Apr-Oct, Sun/Part Shade, Low H ₂ O, Excellent accent tree in the landscape. Spare form, light feathery texture allows sun-loving plants to grow beneath it. Attracts native pollinator insects. Deer resistance MINIMAL
1 gal	<i>Maclura pomifera</i> HORSE APPLE/BOIS D 'ARC Medium-sized, 36-72' tree; short, often crooked trunk; broad, rounded or irregular crown of spreading branches; Armed: single, straight, stout thorns at base of some leaves; Fruit conspicuous on female trees, green, the size and shape of an orange or grapefruit inedible for humans. . Low-Med H ₂ O; Deer Resistance HIGH
1 gal (\$15)	<i>Mimosa disocarpa</i> VELVET-POD MIMOSA Deciduous thorny shrub in Legume family. 2'-6' tall. Showy tube-shaped clusters of dark pink flowers fade light pink at the end of stems, slightly scented Jun-Oct. Seed pods framed by spines on edges. Extremely drought tolerant and must have well-drained soil. Songbirds like the seeds. Low H ₂ O Deer Resistance HIGH NOTE: We discovered this year what we have been selling as <i>Mimosa borealis</i> for years is actually <i>Mimosa texana</i> .
1 gal (\$15)	<i>Mimosa texana</i> FRAGRANT MIMOSA Shrub 6', Small thorns are prolific, Fragrant fuzzy pink blooms Mar-Jul, Sun-PS, Low H ₂ O, Bees, Butterflies, Nectar source, Deer resistance. HIGH NOTE: We discovered this year what we have been selling as <i>Mimosa borealis</i> for years is actually <i>Mimosa texana</i> .

Page 3	TREES & SHRUBS, Large & Small, plus Yucca —Protect trunks from deer antlers. Water and mulch to establish. 3/5 gal = \$45 1 gal = \$25 Some 1 gal \$15 (marked)
1 gal	<i>Morus microphylla</i> LITTLELEAF MULBERRY Small tree to 25 ft. Edible fruit ripens in May. Smaller leaves and fruit than the larger Red Mulberry. More western species that tolerates drought, caliche and limestone soils. Attracts pollinators and birds. Low H ₂ O, Deer Resistance LOW.
1 gal	<i>Parkinsonia aculeata</i> RETAMA Small deciduous tree, usually to 15 ft, though may grow larger with favorable growing conditions, rarely beyond 30ft. Racemes of showy yellow flowers with a red “honey spot” that persists after the others have faded. Legume pods follow. Very tolerant of well drained soil types. Can become weedy in richer soils. Excellent nectar source. Very Low H ₂ O, Deer resistance MEDIUM. Livestock will browse pods.
1 gal	<i>Prunus caroliniana</i> CHERRY LAUREL Evergreen dense shrub or tree 12 to 36 ft. Pyramidal to oval outline. Flowers very early spring. Very important early nectar source. Nearly carefree, dark green visual screen. Can be sheared. Moderate H ₂ O. Full sun/PS Deer resistance MODERATE
1 gal	<i>Prunus mexicana</i> MEXICAN PLUM Small deciduous tree. 15-30' H, Fragrant white blooms in early spring, Edible plums, Sun/PS, Low H ₂ O, Superior pollinator source. Deer resistance MODERATE. Leaves, stems, & seeds are mildly toxic to mammals.
1 gal	<i>Prunus serotina</i> var <i>eximia</i> ESCARPMENT BLACK CHERRY Medium to 50' deciduous tree with extremely high wildlife value. Drooping racemes of white flowers as leaves emerge attract bees and other pollinators Red, then black fruit highly prized by birds. ONLY the ripe fruit is edible to humans. All other parts are poisonous if ingested. This means Deer resistance is HIGH. Prefers calcareous soils of Central Texas Escarpment and some moisture. Medium H ₂ O
3/5 gal	<i>Quercus laceyi</i> LACEY OAK Medium-sized 20-40' deciduous tree. Mar-May, New leaves peach-colored, turning blue-green, then back to peach in fall. Tree takes on smoky appearance in summer. Good for small yards. White oak type/oak wilt resistant. Dry rocky soil. Low H ₂ O Deer Resistance LOW
3/5 gal	<i>Quercus macrocarpa</i> BUR OAK Deciduous large 80-100' tree in white oak group, Mar-May, a fine shade tree, with golf ball-sized acorns. Large leaves, long-lived and fast-growing for an oak. Intolerant of root zone disturbance. Low H ₂ O Deer Resistance LOW
3/5 gal	<i>Quercus muehlenbergii</i> CHINKAPIN OAK Deciduous Medium-large tree 45 – 110', Very attractive tree, shiny dark green leaves, relatively fast growing, relatively free of diseases and pests. Attractive fall color. Does best in well-drained soil and adapts to many different soil types. Low H ₂ O Deer Resistance LOW
3/5 gal	<i>Quercus shumardii</i> SHUMARD RED OAK ; Relatively fast-growing & adaptable. Drought resistant & also withstands short-term flooding. Similar to Texas or Spanish oak, but prefers deeper soils & tends to grow taller & straighter. Provides good fall foliage color. Medium H ₂ O Deer love the large acorns. Red oak susceptible to Oak Wilt. Deer Resistance MINIMAL
1 gal	<i>Rhus lanceolata</i> PRAIRIE FLAME SUMAC Deciduous small tree/large shrub Vivid red seeds fall color for weeks in any weather. Food for bees, mammals and 20 species of birds. Low H ₂ O. Deer Resistance MINIMAL when small.
3/5 gal	<i>Sophora secundifolia</i> TEXAS MOUNTAIN LAUREL Evergreen multi-trunked shrub or small tree to 10-15 ft. typically. Sun/Part Shade, Very fragrant purple blooms in elongated clusters Feb-Mar, Seed pods, Low H ₂ O, Deer resistance HIGH
1 gal	<i>Ungradia speciosa</i> MEXICAN BUCKEYE Small deciduous multi-trunk tree with rounded form, 12-30', can be pruned to single trunk. Sun - PS, Pink blooms Mar-Apr attract numerous pollinator species, Low H ₂ O Larval Host: Henrys Elfin butterfly, Nice fall color and interesting seed pods are mildly poisonous. Deer Resistance HIGH
3/5 gal	<i>Yucca rupicola</i> GREEN TWISTLEAF YUCCA Evergreen succulent, foliage to 24", medium green that twists with age. Very showy white flowers on stalks to 5' April-June. Very low H ₂ O Deer resistance HIGH
3/5 gal	<i>Yucca rupicola</i> X <i>pallida</i> BLUE TWISTLEAF YUCCA Evergreen succulent, foliage to 24", blueish-green that twists with age. Very showy white flowers on stalks to 5' April-June. Very low H ₂ O Deer resistance HIGH
