Spring 2026 Plant Sale Availability List

FIRST DRAFT March 11—Watch for updates

Saturday, March 28 11:00 AM—2:00 PM (or run out of plants)

Southwest Williamson County Regional Park Boulder East & West Pavilions

(near the Quarry Splash Pad) 3005 County Road 175 Leander, TX 78641

Cash, checks, and major credit cards accepted.

If there is a **TEXAS NATIVE PLANT** you are seeking **NOT** on this list, please ask. It would be extremely helpful if you would include the botanical name or a link to a picture of the plant. We may be able to get it for you. We only deal with Texas native plants. If you request something that is not native to Texas, we will politely say so. This offer will end a week before the sale, but you can still ask.

EXCEPTION: 3-5 gallon/\$45 plants. Those plants and some 1 gallon plants are available online March 16-18.

Information about the online sale is posted on our website, npsotwilco.org

PRICES and OTHER IMPORTANT STUFF

4" plants are \$5 1 gallon* perennials are \$15.

6" Hanging Baskets (HB) are \$15 1 gallon shrubs/trees are \$25 3/5 gallon plants are \$45 & \$50

*Please note "gallon" refers black nursery trade pot sizes. The volume of a "one gallon" nursery pot is actually about 1/2 gallon. Similar ratios apply to "3 gallon" and "5 gallon" nursery pots.

Recycle your pots & flats--Bring them to the sale. We will get them to the growers who need them.

Volunteers make this sale possible. NPSOT-Wilco has no paid employees. Ask to be contacted for future workdays. Learn about plant propagation, plant names, plant installation, and how to use native plants in your garden. Support your community, help your environment, and have a great time doing it. You can sign up with the experts at the information table.

All proceeds from this sale support our chapter projects including native pollinator gardens, field trips, trail signs, student outreach in Williamson County, plant rescue and terrific chapter meeting programs.

TREES, Large & Small—Protect trunks from deer antlers. Water and mulch to establish. 1 gal = \$25 3/5 gal = \$45

1 gal	<i>Bauhinia lunarioides</i> ANACACHO ORCHID TREE Deciduous small tree, 6-12' H/W single or multi-trunk; Part Shade; Fragrant White/Pink blooms Mar - May; Low H ₂ O; Attracts Butterflies; Deer Resistance HIGH
1 gal	<i>Cercis canadensis</i> var. <i>mexicana</i> MEXICAN REDBUD Small tree or small shrub, Sun-PS, 5-12'H, Pink/Purple blooms March-April, Low – Very Low H ₂ O; Bees; Butterflies. Critical early nectar source. Larval host for Henry's Elfin butterfly, Smaller, more drought tolerant, with more curl to leaves than Texas Redbud. Deer resistance MODERATE
3/5 gal	<i>Chilopsis linearis</i> 'Bubba' DESERT WILLOW 'BUBBA' Deciduous small tree/large shrub 15-40 ft., slender-twigged, often with leaning, twisting trunk and open, spreading crown. This variety has a strong vertical form and is less shrubby. It also has glossy, darker green, more lush foliage than other desert willows. Showy purple/pink/white flowers during growing season. Pollinators. Low H ₂ O, drought tolerant. Deer resistance MODERATE.
1 gal	<i>Ilex vomitoria</i> 'Hoskin's Shadow' YAUPON HOLLY 'HOSKIN'S SHADOW' Evergreen shrub-small tree, Low H ₂ O; 5-10' H. Can be pruned. Hedge/screen/specimen. Tiny leaves, very early spring flowers are extremely attractive to bees, red berries in fall/winter devoured by birds in late winter, Sun/Part Shade. Deer resistance HIGH.
1 gal	<i>Leucaena retusa</i> GOLDENBALL LEAD TREE Small deciduous tree in Legume family grows to 12-24' tall, showy yellow "balls" of flowers Apr-Oct, Sun/Part Shade, Low H ₂ O, Excellent accent tree in the landscape. Spare form, light feathery texture allows sun-loving plants to grow beneath it. Attracts native pollinator insects. Deer resistance MINIMAL

A word about genera *Prunus* & *Quercus*: These are two of three that have been designated as keystone genera by Dr. Doug Tallamy due to the high numbers of insect species they support.

1 gal	<i>Prunus angustifolia</i> CHICKSAW/CREEK PLUM Twiggy, thicket-forming shrubby tree, 5-15' tall with fragrant white flowers Feb-Mar born in flat-topped clusters; EDIBLE SWEET FRUIT ripening to red in Aug-Sep. Nectar for bees and early butterfly migration, birds love the fruit. Sun-PS, Low to Med H ₂ O, Sandy loose soil. Often found near creekbanks in Wilco. Good fall color. Thorns. Deer resistance MODERATE
1 gal	<i>Prunus caroliniana</i> CHERRY LAUREL Evergreen dense shrub or tree 12 to 36 ft. Pyramidal to oval outline. Flowers very early spring. Very important early nectar source. Nearly carefree, dark green visual screen. Can be sheared. Moderate H ₂ O. Full sun/PS Deer resistance MODERATE
2 gal	<i>Prunus mexicana</i> MEXICAN PLUM Small deciduous tree. 15-30' H, Fragrant white blooms in early spring, Edible plums, Sun/PS, Low H ₂ O, Pollinator source. Deer resistance MINIMAL

SHRUBS: 4" = \$5 1 gallon = \$15 3/5 gallon = \$45

4"	<i>Ageratina havanensis</i> WHITE MISTFLOWER Deciduous Shrub 3-6' H/W, Fragrant White blooms Oct-Nov, Seed heads provide winter interest. Butterflies, Hummingbirds, Sun-PS, Low H ₂ O, Deer resistance MODERATE Essential in pollinator gardens.
1 gal	<i>Aloysia macrostachya</i> WOOLY BEEBRUSH , Evergreen shrub, 6-12' H, Sun, Purple blooms March – Sep, Medium H ₂ O, Butterfly & Bee nectar source, especially honeybees. Deer Resistance: HIGH
1 gal	<i>Anisacanthus quadrifolius</i> var <i>wrightii</i> RED FLAME ACANTHUS Med sized, 3-5' deciduous fine textured shrub. Bright red-orange tubular flowers from summer to fall; blooms best in full sun, tolerates light shade. Can shear as a perennial hedge. Does well in patio pots. Reseeds aggressively. - Hummingbirds, butterflies, larval host. Sun-PS, Low H ₂ O, Very heat tolerant. Deer resistance HIGH
1 gal	<i>Callicarpa americana</i> AMERICAN BEAUTYBERRY , Deciduous understory shrub, Part/Full Shade, 3-5' H/W, White fruit, Blooms May – July, Medium-Low H ₂ O, Deer resistance LOW
4"	<i>Chrysactina mexicana</i> DAMIANITA Low growing evergreen woody perennial, 1' H x 1-2' W. Yellow bloom Apr-Sept., Sun, Very Low H ₂ O, Deer Resistance HIGH. Must have good drainage. Does well around rocks and concrete.
1 gal	<i>Dalea frutescens</i> BLACK DALEA Deciduous low shrub, 1-3' Tall, Sun, Purple blooms July – Oct Larval host Dogface butterfly. Excellent for pollinators. Low H ₂ O Deer resistance HIGH. Nitrogen fixing legume.
1 gal	<i>Leucophyllum frutescens</i> 'Legacy' TEXAS SAGE 'LYNN'S LEGACY' Evergreen Shrub, 3'-5', Silver gray foliage, purple blooms in summer, Full Sun, Low H ₂ O, Nectar, Butterflies, Bees, Cover, Deer Resistance HIGH
4"	<i>Pavonia lasiopetala</i> ROCK ROSE . Sparse semi-evergreen low shrub, Sun-PS, 2-4' H/W, Prolific flowers pink w/yellow centers April - Nov, Low H ₂ O, Butterflies & hummingbirds, Striking when planted in a mass. Deer resistance MODERATE
1 gal	<i>Sambucus nigra</i> ssp. <i>canadensis</i> ELDERBERRY Weak deciduous shrub, Sun-PS, Umbels of white flowers followed by clusters of fruit that are edible when ripe. Used for jellies, homemade wines, herbal medicine. H ₂ O medium to high. Deer resistance HIGH Plant parts other than ripe fruit are poisonous to humans and livestock. Birds love the fruit
1 gal	<i>Tecoma stans</i> 'Compact Orange' ESPERANZA 'COMPACT ORANGE' Deciduous shrub, 4'H x 3' W, Orange flowers Apr-Nov, Sun, Low H ₂ O, Hummingbirds, Butterflies, Deer resistance HIGH
4"	<i>Tecoma stans</i> var. <i>angustifolia</i> WEST TEXAS ESPERANZA Deciduous shrub, 4'H x 3' W, Yellow flowers Apr-Nov, Sun, Low H ₂ O, More compact and cold hardy than most Esperanzas. Hummingbirds, Butterflies, Deer resistance HIGH

GROUNDCOVERS & VINES (Climbers & trailers) 4" = \$5 gallon = \$15 6" hanging basket = \$15

1 gal	<i>Clematis pitcheri</i> PURPLE LEATHERFLOWER Deciduous perennial vine, brittle—provide support. Long lasting flowers May-Sept. Bumble bees. Moderate soil moisture, fairly heat & drought tolerant. Dies to ground in Fall. Deer will browse. Deer resistance MODERATE
1 gal	<i>Dichondra argentea</i> SILVER PONYFOOT Perennial GC, 3-4" tall. Forms low mat to 30 in. across. Use as dense ground cover, falling over rocks, hanging basket or pot. Requires well drained soil. Will freeze back during winter & should be cut back before new growth in the spring. Medium H ₂ O; Deer resistance MINIMAL
4"	<i>Lonicera sempervirens</i> CORAL HONEYSUCKLE Evergreen vine, Sun/PS, 12-20,' Red/Yellow blooms Mar – Jun, Medium H ₂ O, Nectar Source: Hummingbirds, Butterflies, Regular watering encourages flowering. Deer resistance LOW
6" HB	<i>Maurandella antirrhiniflora</i> SNAPDRAGON VINE Part shade, 12-36' long, fine texture: Petite Pink/Blue/Purple blooms Mar. – Oct, Med. H ₂ O, Buckeye Butterfly larval host, Suitable for small trellis or hanging basket. Best sited where plant can be seen up close. Deer resistance MODERATE
1 gal	<i>Passiflora foetida</i> CORONA DE CRISTO Perennial vine, vigorous. Will trail over other plants or keep confined to trellis. Pale lavender-blue flowers open a few hours each day. Small fruit encased in filagree cage. Suckers freely. Fritillary butterfly larval host. Well drained soils, Low H ₂ O. Deer resistance MODERATE
1 gal	<i>Phyla nodiflora</i> TEXAS FROGFRUIT Perennial, prostrate growth to 6", partially evergreen in mild winters. Excellent replacement for dead lawngrass areas or as more formal groundcover. Small clusters of verbena-type flowers with red-purple center buds opening to white flowers. Sun-PS, Low to Medium H ₂ O. Drought tolerant and tolerates inundation. Deer will browse but not usually decimate.
4"	<i>Stemodia lanata</i> WOOLLY STEMODIA Perennial dense GROUNDCOVER, 4-10"H & W, Sun, White/Purple/Violet blooms April – Nov attract small bees (especially honeybees) butterflies & moths, Low H ₂ O, Fragrant Foliage, Deer resistance HIGH

GRASSES, GRASS-LIKE, PALMS & YUCCAS 4" = \$5 1 gallon = \$15 3/5 gallon = \$45

1 gal	<i>Andropogon gerardii</i> BIG BLUESTEM Perennial bunch grass 3'-8' depending on soil moisture and age of clump. One of the "big four" tall grass prairie species. Extremely high quality forage. Prefers deep soils. Coppery-red fall color. Low H ₂ O Deer Resistance HIGH. Seeds sourced from Williamson County PLANT RESCUE historic MoKan Prairie.
4"	<i>Carex texensis</i> TEXAS SEDGE Mostly evergreen low-growing bunch type sedge;10-12"; good turf substitute for dry to moist shade. It can be mowed at a high (4") setting. Excellent for erosion control and low maintenance ground cover for shade. Moderate to low H ₂ O; Deer Resistance HIGH
1 gal	<i>Chasmanthium latifolium</i> RIVER OATS Perennial bunchgrass 2'-4' Low-maintenance shade grass, large, graceful seed heads that sway in breeze. Reseeds easily. Also good in pots & seed stalks used in flower arrangements. Blue-green spring & summer, soft brown most of winter, cut back in February. Moderate H ₂ O; Deer Resistance HIGH
4"	<i>Eriochloa sericea</i> TEXAS CUPGRASS Perennial bunchgrass that can reach 3'. Inconspicuous flowers stalks in growing season. A favorite of Painted Buntings. Moderate H ₂ O; Drought tolerant. Deer Resistance HIGH
1 gal	<i>Hesperaloe parviflora</i> RED YUCCA Perennial succulent, long-lived. Very heat tolerant Sun/PS, 1-3' H/W, Red-Yellow blooms Mar - July, Low H ₂ O, Hummingbirds, Deer eat blooms, not foliage.
4"	<i>Muhlenbergia capillaris</i> GULF MUHLY 1½ -3' with a distinctive seed head up to half as long as the entire plant. Purple spikelets create a deep pink feathery glow in the fall. High H ₂ O– not appropriate for xeriscape. Deer Resistance HIGH

Continued: **GRASSES, GRASS-LIKE, PALMS & YUCCAS 4" = \$5 1 gallon = \$15 3/5 gallon = \$45**

4"	<i>Muhlenbergia lindheimeri</i> BIG MUHLY Large perennial, fountain-shaped grass. Silvery plumes late summer/fall are dramatic in the landscape. Medium H ₂ O Good for pollinators. Deer Resistance HIGH
4"	<i>Muhlenbergia reverchonii</i> SEEP MUHLY 1 -3' Dense clumps of slender stems and leaves. Old foliage forms distinctive curly tufts. Seed heads range from white, pink to beige. Native to limestone soils, often found near seeps. Medium H ₂ O. Deer Resistance HIGH Seeds sourced from Williamson County PLANT RESCUE historic MoKan Prairie.
1 gal	<i>Sabal minor</i> DWARF PALMETTO Fan-shaped evergreen palm 5-10 ' Usually stemless, the leaves arising from an underground stock can be as much as 4 feet wide on mature plant. White blooms are followed by black fruit about 1/2"wide in long clusters. Birds eat fruit. Tolerates heavy soils, poor drainage, deciduous shade. All H ₂ O, Bees, Deer resistance HIGH
4"	<i>Schizachyrium scoparium</i> LITTLE BLUESTEM Perennial tall bunchgrass. Basic component of prairies. Foliage colors range from blue-green in late summer to golden with cotton-tufted seed-heads that attract birds in winter. Reseeds readily so is not recommended for small gardens; best planted in mass. Give good drainage, little watering, and un-enriched soil. Low H ₂ O Deer Resistance HIGH
4"	<i>Sorghastrum nutans</i> INDIANGRASS Large perennial bunchgrass 3-8' depending on how much water it receives. Showy flowering plumes/ seeds Aug-Nov. A tallgrass prairie indicator species. Important cover, larval host. Medium H ₂ O, Deer Resistance HIGH
4"	<i>Sporobolus wrightii</i> GIANT SACATON Very large (to 8ft) perennial grass with attractive seed heads. Tolerates saline soils and wet soils. Erosions control. Good winter forage for livestock. Medium H ₂ O Deer Resistance HIGH
4"	<i>Tridens congesta</i> PINK FLUFFGRASS Perennial to 30" Seed heads from Apr-Oct have a fluffy pink texture. Occurs in areas where water drains in the Hill Country. Flat ground, swales, disturbed ground. Medium Low H ₂ O, Deer Resistance HIGH Seeds for these plants sourced from Williamson County PLANT RESCUE
1 gal	<i>Yucca campestris</i> PLAINS YUCCA Evergreen rosette, occasionally grows stem or trunk to 3'. Very slender leaves bordered in white with lots of white curly hair-like filaments Tall cluster of creamy flowers up to 2' above main stem Apr-Jun. Pollinators and larval food. Low H ₂ O Deer Resistance HIGH (Deer may eat flowers)
1 gal	<i>Yucca treculeana</i> SPANISH DAGGER Tree-like yucca, often branching above the ground. Leaves are thick, stiff, sharp pointed, 3 foot long by 3 inch wide. Giant, 2-4 foot, white floral spikes rise just above the leaves in dense, showy clusters. Both the Yucca Moth and this plant totally rely on each other for reproduction. Seeds from these plants sourced from Ft. Hood area. Low H ₂ O Deer Resistance HIGH

MILKWEEDS & MONARCH LARVAL FOOD PLANTS 4" \$5 1 gallon \$15

4"	<i>Asclepias viridis</i> GREEN MILKWEED Perennial with single clusters of white to yellow flowers. 1'-3' tall. Low H ₂ O requirements, Deer resistance is HIGH. Loves full sun and tolerates most soils. Will grow in a container planting. MONARCH BUTTERFLY CATERPILLAR FOOD SOURCE
----	--

PERENNIALS & ANNUALS 4" = \$5 1 gallon = \$15	
4"	<i>Amblyolepis setigera</i> HUISACHE DAISY Annual, 6-15" H & W, Part Shade, Yellow blooms March – June, Low H ₂ O, Bees, Butterflies, Nectar source, Deer Resistance HIGH
4"	<i>Aquilegia canadensis</i> RED COLUMBINE Erect, usually evergreen perennial, up to 2' Showy nodding, red and yellow flower with upward spurred petals alternating with spreading, colored sepals and numerous yellow stamens hanging below the petals. Self-seeds when happy. Med H ₂ O Well-drained, poor soil. S-PS. Deer resistance MEDIUM
4"	<i>Aquilegia chrysantha</i> TEXAS GOLD COLUMBINE , Perennial, Shade/Part shade, well-drained soil, Robust yellow flowers Apr-Sep. Attractive nearly evergreen foliage mounds resembles Maidenhair fern even when not in flower. Med H ₂ O Deer resistance MEDIUM
4"	<i>Berlandiera betonicifolia</i> TEXAS GREENEYES Herbaceous perennial, 2-3' tall, striking yellow flowers with green centers Apr-Nov. Low H ₂ O, Part shade, medium soil moisture, reseeds freely, great for naturalizing. Deer resistance MEDIUM
4"	<i>Berlandiera lyrata</i> CHOCOLATE DAISY Herbaceous perennial 1'-6' with velvety leaves. Bright yellow flowers with maroon centers throughout most of the growing season. Leaves and flowers are chocolate scented. Low-medium H ₂ O, moist soil, drought tolerant. Deer resistance HIGH
4"	<i>Callirhoe involucrata</i> WINECUP Trailing perennial, 1-3', Showy purple cup-shaped flowers Feb-Jun carpet meadow areas, Sun/PS, Dry/Moist H ₂ O, butterflies, bees, Deer resistance LOW
1 gal	<i>Callirhoe pedata</i> STANDING WINECUP Erect perennial to 3', Showy purple cup-shaped flowers. Sun/PS, Low H ₂ O, butterflies, bees, Deer resistance LOW. Seeds for these plants sourced from Williamson County PLANT RESCUE .
4"	<i>Capsicum annuum</i> , CHILE PEQUIN Edible annual or perennial, 1-3' H, Sun – Shade, small white flowers May – Oct, Low H ₂ O, Attracts Birds, Nectar Source, Deer resistance HIGH Use pods for seasoning soups and meats. State pepper of Texas.
4"	<i>Conoclinium greggii</i> GREGG'S MISTFLOWER Perennial Sun/Part Shade, 1-3' H, Puffy Blue-Purple blooms March - Nov, Med. H ₂ O, butterflies, esp Queens, Deer resistance LOW. Essential for pollinator gardens. Cut back after hard freeze. Can be sheared to control in growing season.
4"	<i>Coreopsis lanceolata</i> LANCELEAF TICKSEED Perennial roadside wildflower with evergreen winter rosette , Sun/Shade, Medium H ₂ O, 2-3' H Yellow blooms with yellow centers on single stems Apr-Jun, Butterflies, Bees, Can get tall and floppy in garden soils. Good for meadow plantings. Reseeds. Deer resistance MINIMAL
4"	<i>Dalea multiflora</i> ROUNDHEADED PRAIRIE CLOVER Perennial with woody stems, erect or sprawling, 1'-2'. Clusters of tiny white flowers arranged in globes to 1/2" Jun-Jul. Excellent species for native bees and other pollinators. Full Sun. Low H ₂ O Deer resistance LOW
4"	<i>Dalea nana</i> DWARF PRAIRIE CLOVER Perennial Low, upright, sprawling or trailing 4 to 16 inches tall. Yellow flowers May-Oct fade to rose color circle making a conelike cluster. Often occurs on dry bare soils. Suitable for rock gardens, areas of reduced mowing. Low H ₂ O Deer resistance LOW. Williamson County PLANT RESCUE .
4"	<i>Dyschoriste linearis</i> SNAKE HERB Perennial, low growing, 6-8" mostly evergreen. Small purple flowers present during the growing season. Needs good drainage. Pollinators. Low H ₂ O Deer resistance LOW
4"	<i>Echinacea angustifolia</i> BLACK SAMSON Perennial, 1-3', pale pink/lavender flowers May—July, Low H ₂ O, Sun-PS, Butterflies, bees, Deer resistance MODERATE/LOW. Preferred species for herbalists due to higher concentration of desirable compounds than other species in the genus.

Continued: PERENNIALS & ANNUALS 4" = \$5 1 gallon = \$15	
4"	<i>Echinacea purpurea</i> PURPLE CONEFLOWER Perennial, 1-3', Deep pink flowers w/gold centers May—July, Med-High H ₂ O, Sun-PS, Butterflies, bees, birds (winter) Deer resistance LOW.
1 gal	<i>Engelmannia peristenia</i> ENGLEMANN'S DAISY Perennial, Sun, 1-3'H, Yellow daisy blooms March – July, Medium H ₂ O, Attracts Birds, Nectar source for insects. Drought resistant. Deer resistance MINIMAL
4"	<i>Eupatorium serotinum</i> LATE BONESET Perennial herb, can grow to 5' but usually shorter. Clusters of tiny white flowers arranged in flat-topped bunches Sept-Nov. Significant source of food for late season/migrating pollinators. Well drained soil in riparian areas. Medium H ₂ O, Deer resistance HIGH
4"	<i>Glandularia bipinnatifida</i> PRAIRIE VERBENA Low-growing short-lived perennial. Full sun. Rounded clusters of lavender/purple flowers bloom atop stems with highly divided leaves. Can be seen covering large wayside areas in spring and early summer. Flowers most of the growing season. Nectar plant for butterflies, insects; reseeds. Low H ₂ O Deer resistance HIGH
1 gal	<i>Hibiscus martianus</i> HEARTLEAF HIBISCUS , Perennial, 1-3' Sun-PS, 3" diameter red flowers year-round in mild winters, Protect below 20 °F, Low/Med. H ₂ O, Hummingbirds, Butterflies, Deer resistance MODERATE
4"	<i>Indigofera miniata</i> SCARLET PEA Perennial legume, prostrate stems 2' Salmon-pink pea flowers year-round. Full & part sun. Dry soils Low H ₂ O Deer resistance LOW
4"	<i>Ipomopsis rubra</i> STANDING CYPRESS Biennial, 3'-5' H, Tubular red flowers with star-shaped openings mostly May-July, but can appear during any warm period. Striking alone or in mass plantings. Sun, Moderate H ₂ O, Hummingbirds, bees, butterflies, Deer resistance MODERATE
4"	<i>Lantana urticoides</i> TEXAS LANTANA Deciduous shrub/woody perennial, 2-3' H/W, Red & orange blooms Apr-Oct, Sun, Very Low H ₂ O Birds, Butterflies, Bees, Deer resistance HIGH Trim to maintain desired size/shape. Essential for pollinator gardens
4"	<i>Liatris punctata</i> var. <i>mucronatus</i> GAYFEATHER Perennial tall-grass prairie species. Grass-like foliage. Sun, 3-6' purple spikes, blooms Aug – Dec, Low H ₂ O, Attracts Butterflies, Bees, Deer resistance LOW
4"	<i>Lupinus texensis</i> TEXAS BLUEBONNET Annual, 1', Familiar blue spike of flowers, March-May. Full Sun, loves limestone/rocky areas/ concrete. Very important food source for bees and similar pollinators. Disappears in summer. Reseeds. Low H ₂ O Deer resistance HIGH
4"	<i>Malvaviscus arboreus</i> v. <i>drummondii</i> TURK'S CAP Shrub/Woody perennial, Sun-Shade, 2-4' H/W, Red blooms May - Nov, Med. H ₂ O, Butterflies, # 1 for Hummingbirds, Deer resistance MODERATE
4"	<i>Marshallia caespitosa</i> BARBARA'S BUTTONS Herbaceous perennial, 8"-18" tall. Apr-June, dainty balls of white, fragrant flowers are borne on slender, leafless stalks arising from a rosette of narrow leaves. Attracts many pollinators. Low H ₂ O, well-drained soil. Deer resistance MEDIUM, RABBITS WILL BROWSE. Seeds for these plants sourced from Williamson County PLANT RESCUE .
4"	<i>Melampodium leucanthum</i> BLACKFOOT DAISY Short lived perennial, Sun/PS, 1' H/1-2' W, Blooms White/Yellow center Mar - Nov, fragrant, VERY Low H ₂ O, Butterflies, Deer resistance HIGH. Rich soil and irrigation shortens life of the plant.
4"	<i>Menodora heterophylla</i> LOW MENODORA Sprawling Perennial; 2-10" high and twice as wide. Silvery-leafed; showy red buds open into a 1-inch bright yellow flower. Mar-Jun. Part shade. Low H ₂ O. Deer resistance LOW
4"	<i>Menodora longiflora</i> LONGFLOWER MENODORA Perennial, up to 1'-3' tall, several stems. Showy 2"-3" tube shaped yellow flowers flared at the end during growing season. Hummingbirds, nectar moths. Part shade, Low H ₂ O. Deer resistance LOW

Continued: **PERENNIALS & ANNUALS** 4" = \$5 1 gallon = \$15

4"	<i>Monarda fistulosa</i> BEEBALM Showy perennial. May-Sept. Clusters of lavender, pink or white flowers, looking like ragged pompoms, bloom atop open-branched 2-3' stems. Aromatic leaves used to make mint tea. Sun/PS, Soil moderate/dry, Medium H ₂ O. Deer resistance HIGH
4"	<i>Monarda punctata</i> SPOTTED BEEBALM Herbaceous perennial to 3' flowering Apr – Aug. Each whorl of pale yellow spotted flowers is surrounded by large, conspicuous, whitish, purple-tinged, leaf-like bracts that can be showier than flowers. Medium H ₂ O. Deer resistance HIGH
1 gal	<i>Nyctaginia capitata</i> SCARLET MUSKFLOWER Sprawling (to 3') herbaceous perennial. Showy clusters of usually red flowers Apr-Nov open in the cool of the day. Flowers can be yellow or orange. Dry soils Sun/PS, Low H ₂ O, Deer resistance HIGH
4"	<i>Oenothera serrulatus</i> TEXAS PRIMROSE Bushy perennial to 30" tall. Apr-Jun branch tips are covered with small, 4-petaled bright yellow flowers. Pollinators. Prefers full sun on dry, well-drained soils. Low H ₂ O, Deer resistance MEDIUM.
1 gal	<i>Penstemon triflorus</i> HILL COUNTRY PENSTEMON , Perennial with evergreen winter rosette. Lovely stalks of bell-shaped rose pink flowers Apr-May, Sun-PS, Low H ₂ O. Butterflies, hummingbirds. Deer resistance LOW
4"	<i>Phacelia congesta</i> BLUE CURLS Herbaceous annual or biennial, 1' to 3' tall. Lavender-blue bell-shaped flowers are numerous, in slender, coiled clusters which uncurl as the buds develop. Mar-May. Will colonize woodland edges. S/PS, Medium H ₂ O, Deer resistance HIGH Special value to native bees. Butterflies.
4"	<i>Phlox pilosa</i> PRAIRIE PHLOX 1-2' mounding perennial. Fragrant clusters of pink flowers in March-April. Bees and butterflies, Low H ₂ O Deer resistance MINIMAL.
4"	<i>Prunella vulgaris</i> SELF-HEAL Herbaceous perennial, rarely reaches 20" tall. Numerous dense flower spikes of purple flowers May-Sep. Sun, Part shade, moist soil Medium H ₂ O, Deer resistance HIGH Historical medicinal herb found in all lower 48 states of US.
1 gal	<i>Pycnanthemum albescens</i> WHITELEAF MOUNTAIN MINT Herbaceous perennial 1-4' tall topped with dense clusters of small white flowers with purple spots Jun-frost. Bracts around flower cluster turn silver and remain until frost. Plants spread in moist soil. Basal foliage present in winter. May be used for culinary purposes. Mint fragrance present in wind or hot sun. Sun/Part Shade. Low-Medium H ₂ O, Deer resistance HIGH All pollinators, especially honeybees.
4"	<i>Rivina humilis</i> PIGEONBERRY Herbaceous perennial, 1-3' S-PS Blooms pale pink & bears scarlet fruit simultaneously. A choice food for many kinds of birds. Without supplemental water in summer, it may go dormant. Grows quickly in warm weather. Deer resistance MODERATE
4"	<i>Salvia azurea</i> PITCHER SAGE Perennial to 5' Blue flowers Jul-Aug attract pollinators. Gray-green leaves. Deep rooted, drought tolerant. Low H ₂ O. Deer resistance LOW.
4"	<i>Salvia coccinea</i> TROPICAL SAGE Perennial/Annual, 2' H, Red flowers Feb-Oct., Sun-Shade, Medium H ₂ O, Hummingbirds, butterflies, Nectar source, A dependable staple for pollinator gardens. Plants put in the ground in spring will often persist as perennials. Reseeds well. Tolerates rocky soils with regular watering. Deer Resistance HIGH
4"	<i>Salvia farinacea</i> MEALY BLUE SAGE Herbaceous Perennial, 24" Spikes of blue flowers during growing season; especially attracts bumble bees. Good fall Monarch butterfly nectar source. Low H ₂ O. Deer resistance HIGH. Seeds for these plants sourced from Williamson County PLANT RESCUE .
1 gal	<i>Salvia greggii</i> AUTUMN SAGE 'LIPSTICK' Semi-evergreen shrub, Sun, 2-3' H/W, Fine texture, rounded shape. Low H ₂ O, Blooms Mar – Nov, Butterflies, Hummingbirds, Deer Resistance HIGH
1 gal	<i>Salvia greggii</i> AUTUMN SAGE RED Semi-evergreen shrub, Sun, 2-3' H/W, Fine texture, rounded shape. Low H ₂ O, Blooms Mar – Nov, Butterflies, Hummingbirds, Deer Resistance HIGH

Continued: **PERENNIALS & ANNUALS** 4" = \$5 1 gallon = \$15

1 gal	<i>Salvia pentstemonoides</i> BIG RED SAGE Perennial Sun-PS, 3-6' H/W, Red blooms Jun–Oct, Medium H ₂ O, Attracts Butterflies & Hummingbirds, Extremely rare in native range. Unlike most Salvias, Deer resistance LOW
4"	<i>Salvia roemeriana</i> CEDAR SAGE Perennial, evergreen, 1-2' H x 2' W, Red blooms Mar-Aug, PS/Shade, Low H ₂ O. Butterflies, hummingbirds. Reseeds. Good groundcover for heavy shade. Deer resistance. HIGH
4"	<i>Scutellaria ovata</i> ssp. <i>bracteata</i> HEARTLEAF SKULLCAP , Groundcover, 1-2½' H, Part Shade-Shade, Blue-violet blooms May-June, Low H ₂ O, Attracts butterflies, Deer resistance MODERATE
1 gal	<i>Scutellaria wrightii</i> WRIGHT'S SKULLCAP Evergreen woody perennial, 6-10" H, Blue/Violet blooms Mar-Jul, Sun-PS, Low H ₂ O, Nectar source, Deer resistance LOW
4"	<i>Senna lindheimeriana</i> VELVET-LEAF SENNA , Perennial, 3-6' H; yellow, 1½" flowers contrasts with grey velvet compound leaves. Aug/Oct; Butterflies, Larval host, Birds, Bees Low H ₂ O Deer resistance MODERATE
4"	<i>Silphium radula</i> ROUGH ROSINWEED Tall herbaceous perennial, to 8' Showy yellow flowers with green to yellow centers, Jun-Aug. Leaves often clasp around the stem creating interesting visual texture. Excellent prairie species for pollinators. Birds will eat seeds in the fall. Full Sun, Low H ₂ O Deer resistance MODERATE
4"	<i>Simsia calva</i> AWNLESS BUSH SUNFLOWER Deciduous sub-shrub to 5' Ray flowers Jan-Dec yellow with gold disc flowers. Ray flowers often have brown or purple markings. Nectar and seeds for songbirds. Very drought tolerant. Low H ₂ O Deer resistance MINIMAL. Seeds for these plants sourced from Williamson County PLANT RESCUE .
4"	<i>Solidago nemoralis</i> PRAIRIE GOLDENROD Perennial, 2-3' Sun – Shade, Yellow blooms Jun – Oct, Med. H ₂ O, Attracts butterflies, Excellent nectar source for Monarch butterflies in fall migration. Deer resistance MODERATE.
4"	<i>Stachys coccinea</i> TEXAS BETONY Perennial, 3' H x 2' W, Red flowers Mar-Oct, Part Shade, Med. H ₂ O, Hummingbirds. Can function as groundcover in part shade. Deer resistance HIGH
4"	<i>Symphotrichum oblongifolium</i> FALL ASTER Herbaceous perennial; mounds 2-3' H Slowly colonizes by stolons; thin regularly to control; Prune it back by no more than half in June. Low-med. H ₂ O, butterflies, bees, Deer resistance MINIMAL
4"	<i>Tetranneuris scaposa</i> , FOUR-NERVE DAISY Evergreen Perennial, Best in full sun, poor soil. Tolerates part shade, 1' H, Yellow flowers most of the year, Low H ₂ O, Nectar Source, Deer Resistance HIGH
4"	<i>Verbesina encelioides</i> GOLDEN CROWNBEARD Annual 3'-5'. Yellow daisies with yellow centers, Prolific flowering summer-hard freeze. Sun, tolerates poor soil, Low H ₂ O, Deer resistance HIGH, Excellent nectar source for bees and butterflies, especially Monarchs in fall migration. Reseeds. Can be rowdy but easy to control.
4"	<i>Verbesina lindheimeri</i> LINDHEIMER'S CROWNBEARD Perennial 15"-30" tall with golden yellow, sometimes white, daisy-like flowers in the fall. Coarse narrow leaves. Drought tolerant. Excellent species for fall pollinators. Low H ₂ O, Deer Resistance MEDIUM.
